Tintri + WHOA.com

Business Continuity & Disaster Recovery Exclusively for Tintri Customers

Bi-coastal Redundancy with **Tintri to Tintri** replication on the WHOA.com Cloud

Setup Your BC/DR Solution In Less Than 20 Minutes

Disaster Recovery Fast & Simple

The simplist way to get your Tintri data offsite safely.

This entry level service will have your data protected in a remote location in no time at all.

Implemented by allocating TB(s)
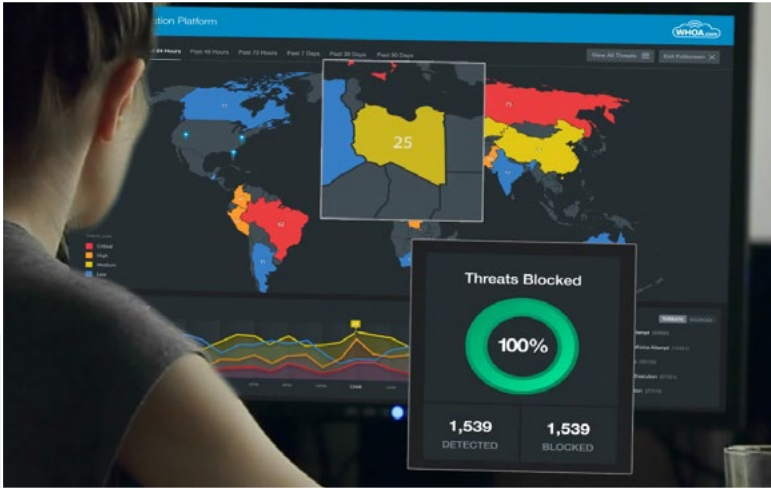

Disaster Recovery plus Business Continuity

The easiest way to access your systems and data in the event of a disaster.

This premium level of service provides resiliency. In addition to the storage allocation, compute resources will be reserved for your critical systems to be brought online.

Threat Observation Platform™

The WHOA.com Threat Observation Platform™ is a one-of-a-kind tool designed for our Secure Cloud customers providing businesses with visibility and transparency into their cloud security.

Visit www.whoa.com/top for a live demo

Our intuitive platform monitors threat severity, displays the total number of threats blocked, and shows you where threats originated, by country and IP address.

Security Is Built Into Our DNA

The WHOA.com Cyber Secure Cloud Platform™ (CSCP) is the only cloud that combines an enterprise-grade architecture featuring multiple Tier IV data centers and a security configuration with intrusion detection and intrusion prevention services.

WHOA.com's secure cloud infrastructure features ISO 27001 and PCI DSS 3.1 certifications and HIPAA compliance for cloud-enabled solutions.
